Profile

I am an Information Technology student at UTEC seeking my first work experience to apply the knowledge I have gained. I am a responsible and dedicated individual, driven to continue developing and learning. With my studies at UTEC, I have gained experience in projects involving Java and Eclipse, as well as working with Oracle databases using SQL language. Additionally, I have acquired valuable experience working effectively in group settings. I am eager to contribute my skills and grow professionally in a dynamic work environment.

Education

UTEC, Bachelor's Degree in Information Technology.

- 2022- Present
- Java
- SQL
- Functional Testing

freeCodeCamp, Responsive web design

- March - 2022
- HTML
- CSS

UdelaR, Medicine

- 2014 - 2021 not finished

After finishing high school, I decided to pursue a Doctor of Medicine degree at Universidad de la República. I studied for 8 semesters and earned a total of 220 credits. Although I decided not to continue this career path as it was not my vocation, these years of studying and effort, in addition to providing me with invaluable knowledge, taught me to be dedicated and perseverant in whatever I set my mind to.

Liceo N 1 “Eduardo Fabini”, high school

- 2011-2013

First Certificate in English, University of Cambridge

- Certificate Grade A, Level C1

Languages

Español (nativo)

Inglés advanced (C1)
